

ARVESA

AN INDEPENDENT COMMODITY TRADING COMPANY

#02

WHO WE ARE & WHAT WE DO

We are independent and utterly committed to offering the most intensive research with appropriate and innovative tools and expert practices. We have the best research tools and liquidity of the trade.

We partake in activities such as sourcing, transporting and storage of all types of commodities. We succeeded by being reliable and independent and by building our knowledge of marketing.

We strive to be reliable and competitive partners; working to contribute to our customers and suppliers both locally and internationally. We focus on the Bahrain and Saudi Arabian market to export commodities produced domestically. We also export to international

markets. Our main markets are Asia & The United States of America.

We practice a philosophy of mutual benefit. By creating superior value of services for our customers and the society, we benefit our company's fundamental values.

Respecting confidentiality is another extremely important aspect of all our commercial relationships. These values help make Arvesa the preferred partner for customers, employees, suppliers, communities and other important constituencies.

THE TEAM

Arvesa was founded by seasoned commodities traders seeking to re-think brokerage as an added-value complement to high-level trading.

Arvesa maintains a short chain of command to facilitate efficient decision-making. This ensures we act decisively to secure advantages in the interest of our partners and clients.

Our team has extensive experience in the oil and the broader commodity business. The experience is built on enduring customer relationships. Arvesa's reputation for delivering results reliably and over a long-term is a hard-earned asset. This reputation underpins the confidence shown by those who rely on us.

In the foreground, a body of water reflects the lights from the buildings. On the right side, a very tall, slender skyscraper is illuminated with a warm yellow light, standing out against the darker sky.
